

RK-110PTW

- Wireless Dual element sensor curtain motion detector
- With directional immunity
- Designed for residential use
- Strong ability to catch signals
- Low power consumption
- True temperature compensation
- Elegant appearance

- Stable performance
- Long lifespan
- Special lenses (optical pigmented lenses) for full orientation (can be equipped with RA93 swivel bracket for wall or ceiling mounting)
- 8M coverage with direction
- Dual passive infrared detective technology
- Microprocessor design
- Resist interference of white light
- Powered by 3V lithium battery, stand-by current is below 40uA
- LED indicator
- High RFI immunity for false alarm prevention (25V/m-1GHz)
- Anti-fluorescent interference signal processing
- Memory and form-C relay models availab

Primary Competitive Advantages:

- Quality Approvals
- Hihg Quality
- Good Service
