

iDO301W Wireless Dual Technology Detector

iDo301W Dual Technology (infrared And Microwave) With Pet Immunity Motion Detector. Its features has intelligent control, microprocessor, top view and elegant design which are specially suitable for luxurious residence and commercial environments etc. By using infrared and microwave simultaneously, and adopting microprocessor for digital signal processing, it well settles the false alarm caused by pets. Temperature compensation, anti-electromagnetic technology, and special pigmented lenses for stronger resistibility to white light, the false alarm problem has basically been settled.

Main Features

- Dual Detective Technology
- Microprocessor Design Improves False Alarm Immunity
- True Temperature Compensation
- Dual Polarity Pulse Count is Adjustable
- Resist Interference of white Light
- Less electricity and transmit signals with LED instruction
- Power Consumption is Low
- High RFI Immunity for False Alarm Prevention (25V/m -1GHz)
- Professional Optical Pigmented Lenses
- Installed on Wall & Ceiling/Corner Mounting
- Suitable to Swivel Brackets
- Convenient for Installation
- Pulse Count is Selectable
- Resist Fluorescent Interference
- Memory and Form-C Relay
- Smart and Elegant Design is Ideal Selection for Residential Installations
